

N95 Hammer Clip unlock procedures (From the idea of Dejan Kaljevic)

First of all, phone must be in this version: **V 06wk41v23.4 17-04-07 RM-159 (c) Nokia** u can download from here:

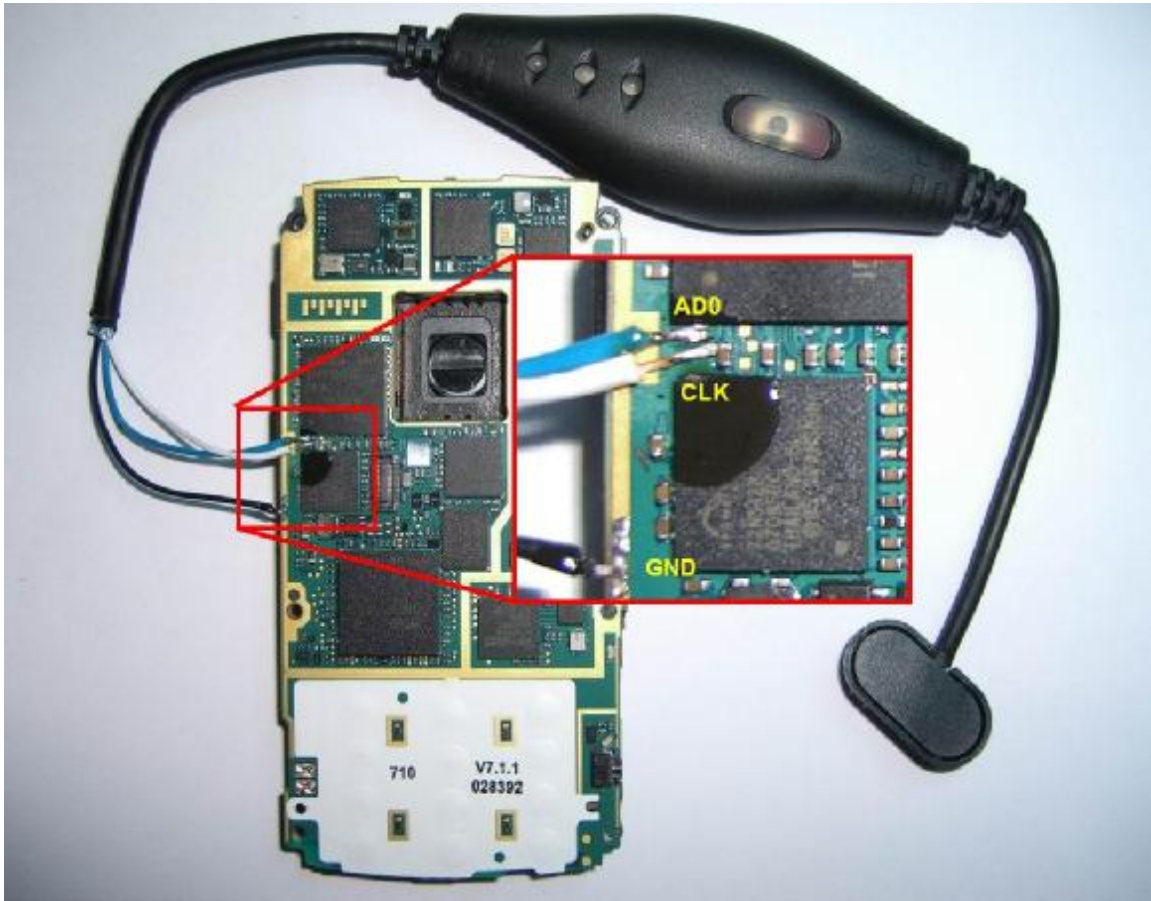

<http://www.megaupload.com/?d=FTV6XBKA>

1. Dismantle the N95 phone and solder the **CLK, AD0 and GND** wires same ways at the image.

Note : Please check which version of N95 Hammer Clip wires you have and use the image below for Color Coding.

Then solder wires as same from the image below :

2. Half assemble your phone including the LCD and keypad mat.
(this needed to enter codes)

3. once half assembled, connect 9v battery to clip.

4. enter #pw+11111111111111+1
(Note : any 15 digits number can replace 11111111111111)

5. press the button of the clip.

6. press immediately key # from the phone.

7. you will see "Simcard Restriction Off" and smile
